by **JOYCARE**  
*Bio*

*Ecological tablet detergents*

 Made in ITALY

# *The first detergents in Tabs that eliminate bacteria, mildew, fungus and algae*

## *Environmental Sustainability*

All the Eco Tabs range eliminates any toxic emissions contained in the standard detergents, degreasers, sanitizers and soaps safeguarding the health of our planet. The mission of Eco Tabs is to eliminate any toxic emission and the continuous use of plastic packaging in the house cleaning products.

## *Economic saving*

We have developed the best ever technological innovation in the cleaning sector, making it affordable to everyone willing to have a shining house and a healthy planet: detergents in water-soluble tabs that allow the end user to optimize spaces, to reduce costs and to contribute actively to the environmental safeguard, without renouncing to results that everyone expects from cleaning products. A single Eco Tabs corresponds to 750ml of product.

## *Consumer Protection and Health*

The Eco Tabs, being completely natural, in addition to protecting the environment, have as main objective the safeguard of the consumer health. Indeed, the products are absolutely not toxic for the organism, because of vegetal and controlled origin. The consumer can use the Eco Tabs products without any protection so long as natural, biodegradable and free of any dangerous substances.

# Triple Action

## Cleaning

The active principles, present inside the formulation, confer to Eco Tabs the necessary cleaning power in relation to surface to be treated.

## Sanitation

Inside the Eco Tabs, you will find sanitizing agents that guarantee a rapid and efficient sanitation of the surfaces treated.

## Prevention

Thanks to Zinc ions technology, the Eco Tabs allow to reduce the microbial proliferation on all type of surfaces. Microbial tests demonstrate a microbial reduction up to 15 days of the surfaces treated.

# Benefit

- Rapid dissolution in water (1 minute or little more)
- Triple action : Cleaning/Sanitization/Prevention
- Economic Saving (you don't buy anymore plastic at each purchasing)
- Space optimization in home
- Biodegradable products (you don't breath the chemical content of the traditional detergent and you don't pollute the environment)
- No more weights to carry! The Eco Tabs weight only 1.5 gr
- Product price (at the price of a standard Bio detergent you can buy two)
- Fundamental contribution to an important social reason

# Eco Tabs

# Method of Use

Add the Eco Tabs in 750 ml of water, after 1 minute shake the bottle to ease the dissolution of the product, wait for one more minute and the product will be ready for use.  
Floor detergent: with one Tab you will generate your 1 Liter of product, to pour in the desired quantity in your bucket. Water Foam: add the Tab directly in the WC and wait for foam formation. Our labs are continuously researching new development for the Tab eco solution with the target to reduce pollution and the use of plastic.

# F.A.Q.

- 1 How much time do the Eco Tabs need to dissolve ?  
1 The Eco Tabs dissolve in 1 minute or little more and then they will be immediately ready to use.
- 2 How much time do the Eco Tabs last after dissolution in water?  
2 The shelf life is 12 months.
- 3 Are the active principles of the product dangerous for the consumer?  
3 All used active principles have natural origin and rapidly biodegradable.
- 4 Is it important the use of distilled water? Shall we use cold or hot water?  
4 You can use distilled water or not. We suggest the use of warm water to ease the dissolution of the Eco Tabs.
- 5 Are the Eco Tabs scented?  
5 Each Eco Tab has its specific fragrance and they are all natural.
- 6 How much time do the Eco Tabs last not dissolved?

- 6 The expire date is 3 years from manufacturing date.
- 7 What are the plus and the advantages of the Eco Tabs compared to traditional detergents?  
7 Let's list out the main aspects:
  - Dissolution time (the Tabs require less than 2 minutes to dissolve)
  - Completely natural, they don't pollute
  - Triple action: CLEANING/SANITATION/PREVENTION
  - Patented technology: inside the Eco Tabs there is the technology of Zinc Ions® that guarantee the reduction of the microbial proliferation.
- 8 Can we use the Eco Tabs on all surfaces or we shall avoid some?  
8 You can use them on all surface being extremely efficient and gentle.

# Eco Tabs Range
